About CSLD

The Center for the Study of Liberal Democracy promotes the appreciation and critical understanding of constitutionalism and the rule of law on the UW-Madison campus. The Center sponsors scholarship and classes pertaining to freedom and free markets, the role of religion in liberal democracies, the place of the military in a free society, and especially the crucial place of civil liberties for Americans from all walks of life. By encouraging wide-ranging civil discourse and taking ideas seriously not usually afforded sufficient consideration on campus, the CSLD aspires to be a model of intellectual diversity in action for the University of Wisconsin-Madison and Wisconsinites everywhere.
